**Project Group**

## LEADERS

Reduce your risk by using Australia's most experienced biofuels group. The only consultancy to implement a greenfield bioethanol plant in Australia.

## SPECIALISTS

Over 15 years in the Biofuels industry. We have assisted with numerous biofuels projects, presented at biofuels conferences and are as passionate about biofuels as you are.

## INTERNATIONAL EXPERIENCE

TfA have worked with a variety of international technologists, toured biofuels and biomass plants and attended bioenergy conferences throughout the USA and Europe.

## COLLABORATIVE

We will work with you to expedite your project, manage approvals and specialist technologists, develop project budgets and provide local design to produce a cost effective, cohesive plant that you can depend on.

## OUR CORE SERVICES

- Feasibility studies, technology evaluation and integration
- Master planning and regulatory approvals
- Front end engineering and budget preparation
- Detailed design and procurement coordination
